Special requests: _____

The gunite yardage may vary due to: form, setting, steel, steel placement, or improper soil compaction. A truck full load of material are billed at 9 cubic yards each. The amount used from a partial load of material will be determined by an on-sight inspection, and our load tickets. Pool must be watered for a minimum of 5 consecutive days, beginning the day after gunite application. Builder is responsible for maintaining weep holes clean throughout the construction process, and for maintaining the gunite finish hydrated.

Payment must be delivered to 3334 Brownie Campbell Rd., Houston, TX 77086 within 10 days of completion, unless otherwise agreed upon or noted on invoice. Interest accrues on late payments at applicable maximum lawful rate. Liens will be filed if payments have not been received within 10 days. If a collection is referred to an attorney, legal fees and costs will be incurred by the builder. The estimated cost will be derived from proposal. All waivers from the proposal apply.
